

## HISHIKO desires changes

Putting safety and environment first, HISHIKO is a business organizer who advances with the customers. Since the company was established in 1993, we work diligently with vital company culture.

HISHIKO has several operating divisions which have specific properties in each field.

### • Magnet applied equipment

Manufacture and sale of magnet applied equipment. The backbone of our business.

Magnets are widely used in the field of material for steel making, machine tool, food industry, environmental industry, health industry, etc.

The business expects the further expansion combined with technology development.

### • Special Welding Consumables for mould

Manufacture and sale of special Welding Consumables for mould having automobile industry primary user.

Our unique technology is top ranked in the world.

Used in not only Japan but also overseas boasting unrivaled technology.

Sparkling like a **little diamond**,

**HISHIKO** establishes oneself as a venture corporation going for a new field.
